Professional Summary

Skilled web developer with over 1.6 years of hands-on experience in developing powerful applications using Node.js and React.js. Expertise in creating scalable, efficient code following industry best practices. Proficient in MySQL and PostgreSQL databases.

Work Experience | (1.6 Years)

Full-Stack Web Developer | Kylient Software Solution Pvt. Ltd.

Feb 2023-Present

Knobs | Node.js, Express.js, React.js, MUI, MySQL.

- It is essentially an E-Commerce stores management system based on Big Commerce API's. My position in this project is as a backend developer.

Employee Tracker | Node.js, Express.js, React.js, React-Bootstrap, MySQL.

- Employee Tracker My main function in this project was backend, although I also worked on the frontend. This project tracks employee details, what tasks we have assigned to them, and generates a pdf and an email functionality.

Machine Logs | Node.js, Express.js, MySQL.

- As a backend developer for this project, I maintain machine logs in a database, receiving data in csv file and array format.

AF-Global | Node.js, Express.js, Postgress, Next.js, MUI.

- Worked as a full-stack developer for this project. This project involves selling insurance to users through agents. We have several tiers of agents, and I have also created an admin panel and website. I have also integrated the ability to add bulk users via csv file and send emails to all users when adding bulk users. (In this project, I have learned NEXT JS).

Technical Skills

Languages: JavaScript, HTML5/CSS3, Node JS, Express JS, React JS.

Developer Tools: VS Code, GitHub, Postman, Jira, Asana.

Database: MySQL, Postgress.

Soft Skills

- Team leading and project management.
- Multi-tasking.
- Time management
